

Council Election Non-Voters Service

Bartels, Taylor & Associates Pty Ltd (BTA P/L) can provide a service to Council covering eligible voters who fail to vote in Council elections.

Non-voting by eligible residents listed on Council's election roles is an annual problem. BTA P/L can provide Council with a service which **follows up non-voters in your municipality.**

The Council Election Non-Voters Service can be undertaken as a **continuous program**

or **specifically targeted** to the post election period.

We can provide staff who are skilled in negotiation and customer service to:

- **door knock** the addresses which Council provides
- attempt to **identify new addresses** of individuals no longer residing at the address provided by Council
- **issue the infringement notice** on your behalf.

A **comprehensive report** will be made available to Council within three (3) weeks following the completion of the field door-knocks.

Councils that employ BTA P/L to conduct the Council Election Non-Voter's Service will reap the following benefits:

- have **up to date records** of eligible voters within their boundaries
- if required, be in a position to provide the Australian Electoral Office with details of **mismatched registered voters**
- ensure that your local elections are an **accurate reflection of ratepayer's preferences**
- demonstrate a **commitment to an individual's right to vote**
- demonstrate **proactive management** of the Council's election strategies.
